Bronze Medal: 2nd choice Antique Dagger

For complete and updated info, see
Flickershutter.com.
Please RSVP to bernard@bearinc.com
or to PFC at 510.814.1800

Photos will be taken with a patent-pending photographic system in which the camera shutter is triggered by the touch as detected by the scoring machine. This allows the moment of the touch to be captured in the image—even flicks can be captured. One of the resulting photos, of Olympic epeeist Soren Thompson, is on the banner of fencingmedia.org. Because this event will be photographed, all competitors must sign a model release, and if photographed will receive full-resolution copies on CD.

At least six full-time strips will be laid out with maximum FIE dimensions, but more can be added if a high turnout is expected. So please RSVP to bernard@bearinc.com or to PFC at 510.814.1800.
